Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DHCM has been independently verified for the period 31 May 2000 - 30 September 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Small Cap Composite has had a

¹NA = Not Applicable

²Statistics are not presented because the 3Y annualized standard deviations are not required prior to 2011. This composite was created in October 2013.

Performance Examination for the period 31 December 2000 – 30 September 2023. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Small Cap Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm’s Small Cap equity strategy. The strategy’s investment objective is to achieve long-term capital appreciation by investing in small capitalization companies selling for less than our estimate of intrinsic value. The composite typically invests in small capitalization companies with a market capitalization below \$3 billion (or, if greater, the maximum market capitalization of companies generally within the capitalization range of the Russell 2000 Index) at the time of purchase. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 2000 Index is the primary benchmark. This index measures the performance of roughly 2,000 US small-cap companies. The Russell 2000 Value Index is shown as additional information. This index measures the performance of US small-cap companies with higher price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Small Cap separate accounts is as follows: First \$20,000,000 = 0.90%; Above \$20,000,000 = 0.80%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DHCM has been independently verified for the period 31 May 2000 – 30 September 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Small-Mid Cap Composite has had a Performance Examination for the period 31 December 2005 – 30 September 2023. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Small-Mid Cap Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm’s Small-Mid Cap equity strategy. The strategy’s investment objective is to achieve long-term capital appreciation by investing in small and medium capitalization companies selling for less than our estimate of intrinsic value. The composite typically invests in small and medium capitalization companies which are defined as those companies with a market capitalization between \$500 million and \$10 billion (or, if greater, the maximum market capitalization of companies generally within the capitalization range of the Russell 2500 Index) at the time of purchase. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 2500 Index is the primary benchmark. This index measures the performance of roughly 2,500 small-to mid-cap companies. The Russell 2500 Value Index is shown as additional information. This index measures the performance of US small- to mid-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Small-Mid Cap separate accounts is as follows: First \$20,000,000 = 0.85%; Above \$20,000,000 = 0.75%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. performance examination for the period 30 June 2001 - 30 September 2023. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Large Cap Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm’s Large Cap equity strategy. The strategy’s investment objective is to achieve long-term capital appreciation by investing in large capitalization companies selling for less than our estimate of intrinsic value. The composite typically invests in large-capitalization companies, which are defined as companies with a market capitalization of \$5 billion or greater, or in the range of those market capitalizations of companies included in the Russell 1000 Index at the time of purchase. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 1000 Index is the primary benchmark. This index measures the performance of roughly 1,000 US large-cap companies. The Russell 1000 Value Index is shown as additional information. This index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Large Cap separate accounts is as follows: First \$20,000,000 = 0.60%; Above \$20,000,000 = 0.50%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Index data source: London Stock Exchange Group PLC. Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DHCM has been independently verified for the periods 31 May 2000 – 30 September 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Large Cap Concentrated Composite has had a Performance Examination for the period 31 December 2011 – 30 September 2023. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Large Cap Concentrated Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm’s Large Cap Concentrated equity strategy. The strategy’s investment objective is to achieve long-term capital appreciation by investing in large capitalization companies selling for less than our estimate of intrinsic value. Holdings are derived from holdings in the Diamond Hill Large Cap strategy. The Large Cap Concentrated strategy typically invests in companies with a market capitalization of \$15 billion or greater. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 1000 Index is the primary benchmark. This index measures the performance of roughly 1,000 US large-cap companies. The Russell 1000 Value Index is shown as additional information. This index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Large Cap Concentrated separate accounts is as follows: First \$20,000,000 = 0.60%; Above \$20,000,000 = 0.50%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. As of 28 February 2023, the All Cap Select Composite was renamed the Select Composite.

procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Select Composite has had a Performance Examination for the period 30 June 2000 - 30 September 2023. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Select Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm’s Select equity strategy. The strategy’s investment objective is to achieve long-term capital appreciation by investing in companies selling for less than our estimate of intrinsic value. The strategy typically invests in securities with a market capitalization of \$500 million or greater. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 3000 Index is the primary benchmark. This index measures the performance of roughly 3,000 of the largest US companies. The Russell 3000 Value Index is shown as additional information. This index measures the performance of the largest US companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Select separate accounts is as follows: First \$20,000,000 = 0.80%; Above \$20,000,000 = 0.70%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. This composite was created in July 2016.

diversified portfolio of investment grade, fixed income securities, including bonds, debt securities and other similar US dollar-denominated instruments issued by various US public or private-sector entities, by foreign corporations or US affiliates of foreign corporations or by foreign governments or their agencies and instrumentalities. The strategy may invest a significant portion or all of its assets in asset-backed, mortgage-related and mortgage-backed securities at the discretion of DHCM. The portfolio may invest up to 15% of its assets in below-investment grade securities at the time of purchase and will typically maintain an average portfolio duration of less than three. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Bloomberg US 1-3 Yr. Gov./Credit Index is the benchmark. The index measures the performance of investment grade government and corporate bonds with maturities of one to three years. The index is unmanaged, includes net reinvested dividends, does not reflect fees or expenses (which would lower the return) and is not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/ or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Short Duration Securitized Bond separate accounts is as follows: First \$200,000,000 = 0.45%; Above \$200,000,000 = 0.35%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. DHCM has been independently verified for the period 31 May 2000 – 30 September 2023. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Short Duration Investment Grade Composite is comprised of discretionary non-fee and fee paying non-wrap accounts with a market value over \$100M managed according to the firm’s Short Duration Investment Grade fixed income strategy. The strategy’s investment objective is to maximize total return consistent with the preservation of capital. The strategy generally invests in a diversified portfolio of investment grade, fixed income securities. Including bonds, debt securities and other similar US dollar-denominated instruments issued by various US public-or private-sector entities, by foreign corporations or US affiliates of foreign corporations or by foreign governments or their agencies and instrumentalities. The portfolio may invest a significant portion of its assets in asset-backed, mortgage-related and mortgage-backed securities at the discretion of Diamond Hill Capital Management, Inc. (the “Adviser”). The portfolio will typically maintain an average portfolio duration of less than three. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Intermediate Bond Composite is comprised of discretionary non-fee and fee paying non-wrap accounts with a market value over \$50M managed according to the firm’s Intermediate Bond fixed income strategy. The strategy’s investment objective is to maximize total return consistent with the preservation of capital. The strategy generally invests in a diversified portfolio of investment grade, intermediate, fixed income securities, including bonds, debt securities and other similar US dollar-denominated instruments issued by various US public-or private-sector entities, by foreign corporations or US affiliates of foreign corporations or by foreign governments or their agencies and instrumentalities. The portfolio may invest a significant portion of its assets in asset-backed, mortgage-related and mortgage-backed securities at the discretion of Diamond Hill Capital Management, Inc. (the “Adviser”). The portfolio will typically maintain an average portfolio duration within 20% of the Bloomberg US Intermediate Aggregate Bond Index duration. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark

returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Bloomberg US Intermediate Aggregate Bond Index is the benchmark. The index measures the performance of investment grade, fixed-rate taxable bond market and includes government and corporate bonds, agency mortgage-backed, asset-backed and commercial mortgage-backed securities (agency and non-agency) with a maturity greater than 1 year and less than 10 years. The index is unmanaged, includes net reinvested dividends, does not reflect fees or expenses (which would lower the return) and is not available for direct investment. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/ or may not be correlated to these indices, which are for comparative purposes only. The Firm’s standard fee schedule for Intermediate Bond separate accounts is as follows: First \$50,000,000 = 0.29%; Next \$50,000,000 = 0.22%; Above \$100,000,000 = 0.18%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation.
