DIAMOND HILL CAPITAL MANAGEMENT

INVESTMENT STRATEGY

- To estimate intrinsic value, the business must be understandable and we must be able to reasonably forecast its cash flows. We seek businesses with sustainable competitive advantages, conservative balance sheets and management with an ownership mentality.
- Investments are sold when the stock price reaches our estimate of intrinsic value, our estimate of intrinsic value is revised such that there is no longer a discount to intrinsic value, a holding reaches our stated maximum position size, or to raise proceeds for a more attractive opportunity.
- More concentrated and broader market capitalization strategy.

Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DHCM has been independently verified for the period 5/31/00 - 9/30/20. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The All Cap Select Composite has had a Performance Examination for the period 6/30/00 - 9/30/20. The verification and performance exam reports are available upon request. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports are available upon request. In addition, a list of broadly distributed pooled funds is available upon request. The All Cap Select Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm's All Cap Select equity strategy. The strategy's investment objective is to achieve long-term capital appreciation by investing in companies selling for less than our estimate of intrinsic value. The strategy typically invests in securities with a market capitalization of \$500 million or greater. The strategy's Adviser anticipates that each of the strategy's investments will also be held in one of the other Diamond Hill strategies. The composite results reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using U.S. Dollars. Net returns are calculated by reducing the gross returns by either the actual client fee paid or the highest stated fee in the composite fee schedule, depending on the type of client and account,
