

# International Composite

As of June 30, 2021

**DIAMOND HILL** CAPITAL MANAGEMENT

## INVESTMENT STRATEGY

- To estimate intrinsic value, the business must be understandable and we must be able to reasonably forecast its cash flows. We seek businesses with sustainable competitive advantages, conservative balance sheets and management with an ownership mentality.
- Investments are sold when the stock price reaches our estimate of intrinsic value, our estimate of intrinsic value is revised such that there is no longer a discount to intrinsic value, a holding reaches our stated maximum position size, or to raise proceeds for a more attractive opportunity.

## TEAM

Grady Burkett, CFA  
Portfolio Manager

Krishna Mohanraj, CFA  
Portfolio Manager

## PORTFOLIO GUIDELINES

- Typically 35-55 positions
- Maximum sector exposure is 35%
- Maximum single country exposure is 30%
- Maximum emerging market exposure is 30%

### Market Capitalization

The portfolio typically invests in securities with a market cap of \$1 billion or greater.

## TOP TEN EQUITY HOLDINGS

Diageo PLC	Consumer Staples	4.3%

Diamond Hill Capital Management Inc. (DHCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DHCM has been independently verified for the period 5/31/00 – 3/31/21. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. DHCM is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds and separate accounts. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports are available upon request. In addition, a list of broadly distributed pooled funds is available upon request. The International Composite is comprised of discretionary fee paying non-wrap accounts managed according to the firm's International equity strategy. The strategy's investment objective is to achieve long-term capital appreciation by investing in non-U.S. companies selling for less than our estimate of intrinsic value. The composite typically invests in companies with a market capitalization of \$1 billion or greater. The composite results reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using U.S. Dollars. Net returns are calculated by reducing the gross returns by either the actual client fee paid or the highest stated fee in the composite fee schedule, depending on the type of client and account, and are reduced by estimated accrued performance based fees where applicable. Only transaction costs are deducted from gross of fees returns. The Morningstar Global Markets ex-U.S. Index is the benchmark. This index is a net total return index designed to provide exposure to the top 97% market capitalization in each of two economic segments, developed markets, excluding the United States, and emerging markets. Our selection process may lead to portfolios that differ markedly from the benchmarks presented. Returns may be more volatile than, and/or may not be correlated to these indices, which are for comparative purposes only. The Firm's standard fee schedule for International separate accounts is as follows: First \$20,000,000 = 0.75%; Over \$20,000,000 = 0.65%. The dispersion measure is the asset weighted standard deviation of the annual portfolio returns. Only portfolios represented in the composite for the entire year are included in the calculation. The calculation is not performed if the composite contains 5 or fewer accounts for the full year. No alteration of composites as presented here has occurred because of changes in personnel at any time. **Past performance is not a guarantee of future results.** GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Index data source: Morningstar, Inc.
