(DHCM) is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. Diamond Hill provides investment management services to individuals and institutional investors through mutual funds and separate accounts. DHCM claims compliance with the Global Investment Performance Standards (GIPS®). The Large Cap Composite is comprised of all discretionary, non-fee and fee-paying, non-wrap accounts managed according to the firm's Large Cap strategy, respectively, including those clients no longer with the firm. The strategy's investment objective is to achieve long-term capital appreciation by investing in companies within the market capitalization range of the strategy that are selling for less than our estimate of intrinsic value. The Large Cap strategy typically invests in companies with a market capitalization of \$5 billion or greater. The Russell 1000 Index measures the performance of roughly 1,000 US large-cap companies. The Russell 1000 Value Index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Net returns are calculated by reducing the gross returns by either the actual client fee paid or the highest stated fee in the composite fee schedule, depending on the type of client and account, and are reduced by estimated accrued performance based fees where applicable. Only transaction costs are deducted from gross of fees returns. GIPS® is a registered trademark of CFA Institute.
