Philosophy and Process Highlights

We believe successful, long-term fixed income investing starts with small, individual security decisions.

- We look for undervalued securities and spread sectors that offer incremental yield and total return relative to the index.
- With a focus on securitized products, we have the potential to achieve higher credit quality while maintaining a yield advantage over government or corporate credit-focused strategies.
- We regularly look outside the benchmark for value-add opportunities.

Portfolio Guidelines

The portfolio generally invests at least 80% of its assets in securitized bond investments. The portfolio may invest up to 15% of its assets in below-investment grade securities at the time of purchase and will typically maintain an average portfolio duration of one to two, with a maximum of three.

¹ Cash & Other may include cash and money market funds. RMBS: Residential Mortgage-Backed Securities, CMBS: Commercial Mortgage-Backed Securities.

² Security quality ratings are derived from underlying portfolio securities by using the middle rating of Standard & Poor's, Moody's and Fitch. If only two of Standard & Poor's, Moody's and Fitch rates a security the higher of the two is selected. If only one of Standard & Poor's, Moody's and Fitch rates a security the available rating is used. For securities that are not rated by Standard & Poor's, Moody's or Fitch a rating from a secondary Nationally Recognized Statistical Rating Organization ("NRSRO") may be used. Ratings by any agency represent an opinion only, not a recommendation to buy or sell. Securities that are not rated by any agencies are reflected as Not Rated "NR."

Diamond Hill Capital Management, Inc. (DHCM) is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. Diamond Hill provides investment management services to individuals and institutional investors through mutual funds and separate accounts. DHCM claims compliance with the Global Investment Performance Standards (GIPS®). The Short Duration Securitized Bond Composite is comprised of all discretionary, non-fee and fee-paying, non-wrap accounts managed according to the firm's Short Duration Securitized Bond strategy, including those clients no longer with the firm. The strategy's investment objective is to maximize total return consistent with the preservation of capital by investing in high, medium and low-grade fixed income securities. The Short Duration Securitized Bond strategy generally invests at least 80% of its assets in a diversified portfolio of investment grade, fixed income securities and may invest a significant portion or all of its assets in asset-backed, mortgage-related and mortgage-backed securities. The portfolio may invest up to 15% of its assets in below-investment grade securities at the time of purchase and will typically maintain an average portfolio duration of less than three. The Bloomberg US 1-3 Year Government/Credit Index measures the performance of investment grade government and corporate bonds with maturities of one to three years. The index is unmanaged, includes net reinvested dividends, does not reflect fees or expenses (which would lower the return) and is not available for direct investment. Index data source: Bloomberg Index Services Limited. See diamond-hill.com/disclosures for a full copy of the disclaimer. To receive a complete list and description of all Diamond Hill composites and/or a GIPS® report, contact Scott Stapleton at 614.255.3329, ssapleton@diamond-hill.com or 325 John H. McConnell Blvd., Suite 200, Columbus, OH 43215. The performance data quoted represents past performance; past performance does not guarantee future results. Composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule.
