## Philosophy and Process Highlights

Under our intrinsic value philosophy, we:

- Treat every investment as a partial ownership interest in that company
- Seek to invest at a discount to intrinsic value
- Possess a long-term investment temperament
- Recognize that market price and intrinsic value tend to converge over a reasonable period of time

## Portfolio Guidelines

- Typically 40–60 positions
- Maximum position size is 7%
- Top 10 holdings are typically greater than 30% of net assets
- Maximum industry exposure is 20%
- Maximum sector exposure is 30%

## Market Capitalization

The portfolio typically invests in companies with a market capitalization of \$5 billion or greater.

Diamond Hill Capital Management, Inc. (DHCM) is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. Diamond Hill provides investment management services to individuals and institutional investors through mutual funds and separate accounts. DHCM claims compliance with the Global Investment Performance Standards (GIPS®). The Large Cap Composite is comprised of all discretionary, non-fee and fee-paying, non-wrap accounts managed according to the firm's Large Cap strategy, respectively, including those clients no longer with the firm. The strategy's investment objective is to achieve long-term capital appreciation by investing in companies within the market capitalization range of the strategy that are selling for less than our estimate of intrinsic value. The Large Cap strategy typically invests in companies with a market capitalization of \$5 billion or greater. The Russell 1000 Index measures the performance of roughly 1,000 US large-cap companies. The Russell 1000 Value Index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule.
